

# Donation Acer Chromebooks

**Acer contributes again to Quina Care.**  
The hospital is operating paperless. Since the beginning, Acer chromebooks donated by Acer, are being used. Due to the increase in the number of staff and the chromebooks being outdated, there was a wish for new chromebooks. Once again

Acer has made an amazing donation: no less than ten chromebooks were received by chair Cootje Bouwman for Quina Care. By now some of these are already operational in the hospital. Many thanks to Acer!

# New Ambassador Baukje Zaaier

**Baukje will give her all for Quina Care.**

Floris van de Sman has stopped as ambassador for Quina Care. We found an excellent replacement in Baukje Zaaier! It's not her first time contributing to Quina Care. Two times already she completed a marathon for Quina Care and in 2022 during her farewell as paediatrician in training at the children's centre at the Martini Hospital in Groningen

her team collected money for Quina Care. Baukje would like to introduce herself to you:

*'I am Baukje Zaaier, 30 years of age and I grew up in Friesland.*

*Together with my husband I live in beautiful Groningen! Carolien is my cousin, through her I was inspired to become a doctor. After some detours I entered, partly because of Carolien, into medical school. After completing my studies I have worked in various places as a resident.'*

Click [here](#) for the rest of Baukje's story.

# Volunteers Katja and Jessica are visiting

**For the second year in a row, doctors voluntarily work at the hospital for a month.**

Doctors Katja Schamp and Jessica Nomen have visited the hospital already in February 2022 to volunteer for a month.

This was such a success that they visited for another month in February-March 2023. Just like last year they created protocols,

treated patients and considered how health care could be improved. We are very thankful to them once again!

# Adore Ecuador Travel

**Going on a trip to Ecuador and contribute to Quina Care.**

Adore Ecuador Travel is a travel agency in Ecuador that was founded by the Dutch Anouk and Margot. Sustainability and social involvement are a central issue for them. That is why they donate 1% of their revenue to local charities of their choice. For some time now Quina Care is

one of these charities and multiple wonderful donations have been received! If you book a trip at Adore Ecuador Travel you can indicate where you'd like to donate your 1% to. Are you considering a trip to Ecuador, please have a look on their [website](#).

# New sponsor for operational costs

**Once again additional funding was obtained to keep the hospital running.**  
With running a hospital comes high operational costs. Salaries, electricity bills and insurance fees are some of these. Quina Care has some major sponsors already, but to ensure a complete coverage of these costs extra sponsors are more

thank you. Therefore, it's amazing news that at the end of 2022 C&W DE BOER STICHTING decided to support Quina Care financially for a duration of three years, 2022 until 2024, for an incredible amount.

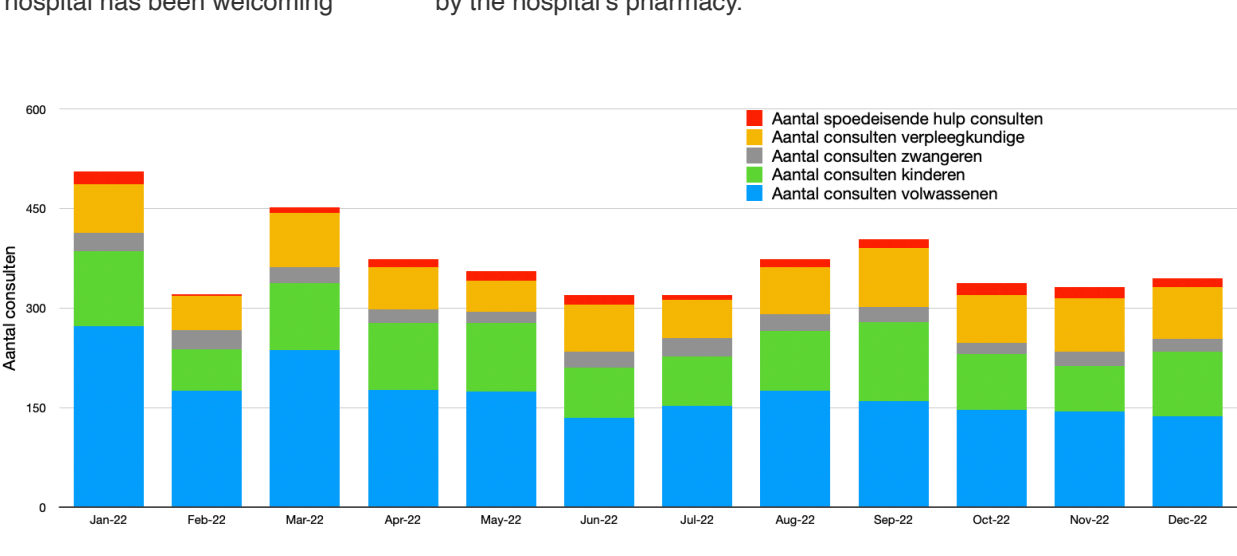

# One year Hospital San Miguel – Quina Care

**First successful year of the hospital is behind us.**

On 8 November 2022 it was exactly one year since Hospital San Miguel - Quina Care opened its door for the first time. From that very first moment at 8 in the morning the hospital has been welcoming

patients continuously. For some others a consult only suffices, others need ultrasoundography or laboratory tests. This way, essential medication will be prescribed which will be provided by the hospital's pharmacy.

The graph below shows the number of patients in 2022. Monthly a total of 300-450 consults take place. These are divided over different categories.

# Opening inpatient care units

**Inpatient care units will open July 1st 2023.**

Finally! The first of July 2023 the inpatient care units will open. From that moment it will be possible to admit patients for observation or treatment. Due to several circumstances,

mainly the Corona pandemic and supply problems of building materials, later than intended. Even better, it's going to happen now. For the next three months, (local) staff will be hired and

final renovation work will be done. By opening the inpatient care units, operational costs will increase a lot. Would you like to contribute? Go to [Quina Care](#) for all the options.

Donate

Quina Care needs the support of donors. Only with your help we can realize the health care

the people of Putumayo so desperately need. To donate, press the button on the left.

Contributing is also possible via [SponsorKliks](#) and [123inkt.nl](#). Click on the link or on the logo to visit the website.
